ISO 14001:2015 Lead Auditor (Environmental Management Systems) Training Course

Aim of this course

The aim of this course is to provide students with the knowledge and skills required to perform first, second and third-party audits of Environmental Management Systems (EMS) against ISO 14001, in accordance with ISO 19011 and ISO/IEC 17021, as applicable. All references to ISO standards are to the current versions, unless stated otherwise.

What this course is about

This course is designed for you to understand the principles and practices of effective Environmental Management System audits using a structured approach. You will be channeled through an end-to-end audit process from initiation to follow-up and closure. During the 5 days you will acquire knowledge and skills required to undertake and lead a successful Environmental Management Systems audit.

Who can attend this course?

Any person who have prior knowledge of environmental/quality management

What prior knowledge should I have?

Students taking this course are expected to have the following prior knowledge:

- ★ The Plan, Do, Check, Act (PDCA) cycle and the core elements of a management system and the interrelationship between top management responsibility, policy, objectives, planning, implementation, measurement, review, and continual improvement.
- ★ The intended outcomes of an environmental management systems including:
 - ★ Enhancement of environmental performance
 - ★ Fulfilment of compliance obligations
 - ★ Achievement of environmental objectives
- ★ Knowledge of the requirements of ISO 14001 and the commonly used environmental management terms and definitions, as given in ISO 14001, which may be gained by completing an IRCA Certified EMS Foundation Training course or the equivalent.
